

Format for ANSWERING REVIEWERS

March 22, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 2131-Reviewed.doc).

Title: Incidental meandering right pulmonary vein, literature review and proposed nomenclature revision

Author: Mark Alexander Rodrigues, Gillian Ritchie, John Tallach Murchison

Name of Journal: *World Journal of Radiology*

ESPS Manuscript NO: 2131

The manuscript has been amended according to the suggestions of reviewers (changes are highlighted in yellow):

1 Format has been updated

The only change not implemented was the order of the entries in table 1. They are entered in chronological order to emphasis the changing role imaging plays in the diagnosis of pulmonary venous anomalies and as such they cannot be placed in the order the references appear in the text.

2 Revision has been made according to the suggestions of the reviewer

- (1) Arrows have been included on figures 1 and 2 to highlight the scimitar sign
- (2) The title has been amended to highlight the proposed revised nomenclature
- (3) Clinical and investigative findings have been included in the case description
- (4) The differential diagnosis of the scimitar sign has been included

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Radiology*.

Sincerely yours,

Mark Rodrigues, BSc (Hons), MBChB (Hons)
