Dear Editor

First of all we apologize for the delay of our re-submission due to the language review.

Please find enclosed the revise version together with the audio core tip.

Here our reply to referee 1:

The paper of Rispo et al (now ref 53) and Manginot (now ref 91) are included and discussed

Referee 2 = referee 1

Referee 3

The abstract is now re-written

Chapter on immunomodulators is amplified (page 11) all changes highlighted in yellow

Typing errors: now corrected and highlighted in yellow

We hope that the paper is now acceptable for publication

On behalf of all coauthors

Kind regards

Walter Fries, MD, AGAF
