Proofread and Edited Document

Your Perfect English

Dear Cuneyt,

Please find your edited document here.

As you will see, all the editor's changes are tracked so that you can see where they have made improvements. The most convenient way of removing the tracking notes is to: 1) select the 'Review' tab 2) select 'accept changes' > click 'accept all'.

MS Word 2013:

The *Track Changes* highlighting will not show automatically in MS Word 2013. To show changes:

- Select the 'review' tab on the main menu
- Click on the dropdown box that currently says 'Simple Markup'
- Select 'All Markup' from the options
