Journal: World Journal of Gastroenterology.

ESPS Manuscript NO: 22519.

Title: Hepatitis B and Delta viruses replicatuion interference. Influence of hepatitis B genotype.

Author list: Antonio Madejón, Miriam Romero, Ángela Hernández, Araceli García-Sánchez, Marta Sánchez-Carrillo, Antonio Oliveira, Javier García-Samaniego.

Correspondence to: Dr. Javier García-Samaniego. MD, PhD, Hepatology Section, CIBERehd. Gastroenterology Department, Hospital Universitario La Paz, Paseo de la Castellana, 261. 28046, Madrid. Spain. javiersamaniego@telefonica.net

Statistical analysis.

Dr. Antonio Madejón Seiz, certify that all parameters expressed as absolute number or percenteges were analyzed using the Spearman's ran-correlation, the Wilcoxon matches-pairs and the U Mann-Wiitney systems. The percentage of variability of each variable was expressed as the variant coefficient (VC). The mean comparisons were performed using the Student-t test. All the statistical anaysis was performed using the SPSS v.13 software (SPSS Inc. North Chicago, IL, USA).
