To whom it may concern:

This letter is certificate you that I have reviewed the manuscript of “Minimally invasive McKeown esophagectomy for esophageal cancer updated experiences from a high volume cancer center” and focused on Statistical methods. Study design used in this study is appropriate for the research question. Statistical methods applied in the analysis are suitable for the variable characters.

If I can provide you with any additional information, please do not hesitate to contact me.

Sincerely Yours,

*Wen-Qiang Wei M.D. Ph.D.  
Professor and Chief of Clinical Trials Section
