

Nijmegen April 8th, 2013

To whom it may concern.

Concerns:

ESPS Manuscript NO: 2339 entitled Title: Another look at the life of a neutrophil.

Based on the publication of over 130 papers, some of them in high impact journals, I can guarantee that the language in our paper is of grade A level.

As one editor of the Lancet remarked when I questioned him about the language we used in the paper we submitted to them: the paper was well written and the level of the English language was at a high level.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'T' followed by a series of loops and a final downward stroke.

Dr. R.Torensma
