ANSWERS TO THE REVIEWS

Reviewer's code: 00506569

We thank the critical reading carried out by the reviewer. As requested English was revised

Reviewer's code: 00504024

We thank the critical reading carried out by the reviewer.

Reviewer's code: 00503929

We thank the relevant comments performed by the reviewer. As requested, the mistakes related to the life cycle of *Eurytrema* spp. presented by Schwertz et al. (2015) were explained and discussed with clarity in this new version.

Reviewer's code: 00503951

We thank the critical reading carried out and comments performed by the reviewer. However, we would like to point out that, as discussed in this letter, metacercariae of *Eurytrema* are found exclusively inside insects that act as second intermediate hosts. Thus, metacercariae of *Eurytrema* are not found contaminating vegetables.
