

**SIGNIFICANT VARIATIONS IN NUTRITIONAL SUPPLEMENTATION  
AMONGST NEONATES IN THE UK**

**1 24378-Institutional review board statement**

The project was reviewed by the local Research and audit department and approved without the need for further ethical approval.

**2 24378-Informed consent statement**

All participants gave verbal consent before telephone survey was completed. No anonymous information was recorded.

**3 24378-Biostatistics statement**

Only descriptive statistics were used, with no further statistics employed. No statistician was therefore used.

**4 24378-Conflict-of-interest statement**

SI and FT have none to declare. MG has received travel grants and educational grants from various companies to attend scientific and educational meetings, including Danone/nutricia, Abbott, Ferring, Casen Fleet, Vifor, Clinova, Tillots, Warner Chiclott, Norgine and Biogaia. They had no involvement in this or any other study.

**5 24378-Language certificate**

We are native English speakers

**Data sharing statement**

The dataset is available from the corresponding author at [morris@betterprescribing.com](mailto:morris@betterprescribing.com)

Participants gave informed consent for inclusion and all data recorded was fully anonymous
