Dear Author:

Thank you for entrusting us with your manuscript and opting for our Advance Editing service.

We have edited your assignment NDGHS-14 for content, language, grammar, and structure, and would like to share our experience in editing your manuscript along with some helpful notes.

With regard to language and grammar, the manuscript required some changes and some sentence reconstructions and word choice changes were made to achieve true native expression. The content had to be revised at a few instances for further clarity. Overall, your manuscript needed moderate intervention to achieve publishable quality.

Please be assured that we have edited the manuscript to the best of our ability and have clarified some of our changes through tags and remarks. As a step toward finalization, we suggest that you resolve all tags in the main file and remarks given in the following section, as this is important for successful publication.

We have added tips on academic writing conventions specific to your manuscript in the edited file. We hope you find these tips helpful for future writing.

We wish you the very best for the successful publication of your manuscript and look forward to working with you again.

Sincerely,

Your Editor

Kevin
