1.	<ul style="list-style-type: none"> It is a well described case of neonatal bullous impetigo by staphylococcus aureus. Please indicate the season or climatic condition when the child was diagnosed. I suggest to delete the table which describe the antibiotic-sensitivity. The figures are not so clear, especially the one on bacteria smear. Please indicate in arrow, or change to a high resolution figure. 	<p>Thanks for appreciating</p> <p>It has been added in the manuscript- Case History Line 2</p> <p>Table deleted</p> <p>Figure 1 (b) added. Figure 2 made clearer.</p> <p>The areas have been marked</p>
2.	<ul style="list-style-type: none"> This is an interesting case report describing the development of staphylococcal bullous impetigo in a neonate. The manuscript is in general well-written. However, the clinical figure appears to be out of focus. Please provide better quality clinical photos (both full-body and close-up views) if available. 	<p>Thanks for appreciating</p> <p>The areas have been marked</p> <p>Figure 1 (b) added. Figure 2 made clearer.</p>
3.	<ul style="list-style-type: none"> The paper reports an interesting and rare case of bullous impetigo caused by Staphylococcus aureus in a 	<p>Thanks for appreciating</p>

	<p>neonate.</p> <ul style="list-style-type: none">• It is well written and clearly reported.
