Dear Editor,

Re: Manuscript 24615

Thank you for the opportunity to submit a revised manuscript of our Original Article titled "Quantifying prosthetic gait deviation using simple outcome measures", originally submitted in January 2016 to World Journal of Orthopedics.

The manuscript has been improved according to the suggestions of the reviewers and the editor, namely:

- The format has been updated, specifically modification of the abstract and inclusion of comments.
- References and typesetting were corrected.

Thanking you for this opportunity and your assistance.

Sincerely,

Lauren Kark
