

## ANSWERING REVIEWERS

March 8, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 24740-review.doc).

**Title:** Crohn's Disease Presenting as Acute Gastrointestinal Hemorrhage: A Review

**Author:** Amareshwar Podugu, Kanwarpreet Tandon and Fernando Castro.

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 24740

The manuscript has been improved according to the suggestions of reviewers:

1 Reviewer 02841861

This manuscript is mainly talking about Crohn's disease with gastrointestinal hemorrhage. It was well written and could help doctors to better understand this complication. I suggest it to be accept.

Thank you for reviewing our manuscript.

2 Reviewer 00680628

This review article aimed to review the risk factors, diagnostic modalities and treatment options for the management of Chron's disease (CD) with gastrointestinal hemorrhage. The role of Infliximab in the therapy of CD with/without gastrointestinal hemorrhage warrants further study. This manuscript is worth publication.

Thank you for reviewing our manuscript.

3 Reviewer 00182276

This is a simple but usful review. its simplicity is the best! Easy to follow the guideline! I suggest it for publication. My only proposal is that to remove the nonEnglish literature!

(1) Thank you for reviewing our manuscript.

(2) The non English literature (Reference number 27 and 28) was cited because very limited studies are available on the topic involving the role of infliximab in management of hemorrhagic Crohn's disease. The references have been removed.

4 The references have been updated in the requested format.

5 Comments section has been added as requested.

6 Audio core tip has been uploaded as requested.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

*Fernando Castro, M.D.*
