Response letter to reviewer for my paper

**Using simulation to train orthopaedic trainees in non-technical skills: a pilot study**

Page 1. Authors names and institution address reformatted as requested.  
Conflict of interest statement signed and attached.

Page 2. Informed consent statement made.  
Corresponding to address reformatted.  
Institutional review board statement. This has proven difficult to understand what exactly you require. This was purely study looking at doctors responses to a course, we do not use IRB in United Kingdom. Please let me know exactly what you require further if my statement in the text is not enough.

Page 4-5. Abstract restructured to meet word limits.

Page 5. Audio core tip recorded and attached as mp3

Figures and tables moved to the end of the text. (Placeholder1)

References all placed in square brackets.

Cited references placed in the article body, not as a footnote.

Many thanks
