

Non-Human Subjects Research Determination

Ying-Ying Qiao

Department of Gastroenterology, Shandong Provincial Hospital Affiliated to
Shandong University

1016506892@qq.com

Dear Investigator:

IRB reviewed the following protocol:

Type of Review	Initial-Expedited		
IRB ID	2765	Approval period	N/A
Title	Interleukin-22 ameliorates acute severe pancreatitis associated lung injury in mice		
Investigator	Ying-Ying Qiao		
Funding	N/A		
Documents reviewed	Initial Review Application with protocol; HIPAA Waiver request; Review fee waiver request		

The IRB determined that the proposed activity is not research involving human subjects as defined by DHHS and FDA regulation.

IRB review and approval by this organization is not required. This determination applies only to the activities described in the IRB submission and does not apply should any changes be made. If changes are made and there are questions about whether these activities are research involving human subjects in which the organization is engaged, please submit a new request to the IRB for a determination.
