

ANSWERING REVIEWERS

Dear Editor and Reviewers,

Thank you for reviewing our paper “Condensing osteitis of the clavicle in children”.

We’ve appreciated your comments. No changes were required by the reviewers (see comments below).

We hope that you will consider our revised manuscript for publication in *World Journal of Orthopedics*

Sincerely,

The authors of the paper WJO-25116

Reviewer #1

This Manuscript has been described very well. Although it is a case series, however the authors summarized the previous literature and presented well. It is worth for publication.

We thank Reviewer 1 for his positive comments.

Reviewer #2

Very good and well written paper.

We thank Reviewer 2 for his positive comments.
