

江西中醫藥大學

Jiangxi University of Traditional Chinese Medicine

INSTITUTIONAL REVIEW BOARD STATEMENT

The study was supported by the Project of National Natural Science Foundation of China (No. 81260595 and 81460679), and performed in accordance with the document (NO. JZ2015-16) which was approved by Biomedical Ethics Committee Experimental Animal Ethics Branch of Jiangxi University of Traditional Chinese Medicine.

All routine colonic biopsy specimens and gut-associated lymphoid tissue samples from the mice were taken after ethical permission was obtained for participation in the study.

The manuscript had not been submitted in any other journal, and has no controversy on intellectual property with any organization or individual.
