

Response to reviewers' comments

Reviewer 00503601:

We would like to thank the reviewer for the comments. This reviewer has no specific requests.

Reviewer 503883:

We would like to thank the reviewer for the comments.

The Forrest classification of bleeding lesions was not documented on all patients, which is a limitation of our study. We have added a statement on this limitation in the Discussion section.

We have already added the causes of bleeding in the table 2.
