

Dear Editor,

We deeply appreciate the opportunity to provide a revised version of our paper in World Journal of Respiriology. The reviewer's comments are accurate and have given us useful hints for the improvement of our manuscript. Following you may find the responses to the comments (for your convenience we have included the reviewer's comments and have provided a point-by-point response).

The title has been modified in order not to resemble the title of any other published article with relevant topic.

**Reviewers' comments:**

A1. Remodeling of the airway is more characteristic of bronchial asthma.

We deleted this phrase from the text.

A2. Include reference. References ¿4,5?

References have been included

A3. ?

The sentence has been rephrased in order to be more clear.

A4. I think it should be clear that before a diagnosis of ACOS, treatment with inhaled corticosteroids should be included.

The treatment options are mentioned in the same paragraph.

A5. Rate: With regard to bronchodilator therapy, ...

We corrected the expression according to reviewer's suggestion.

A6. References: Correct and updated (10/19 last 3 years).

The references have been corrected.
