

Guarantee

Dear Editors,

My manuscript entitled "A long adult intussusception secondary to transverse colon cancer" (ESPS Manuscript NO: 2560) was accepted by World Journal of Gastroenterology, and the language evaluation was B/B. And I have contacted Professor Ma Jinyun (one of English language editing companies you recommended), and she said that my language evaluation is OK for WJG and it may need minor polishing. So I guarantee my manuscript does not need further language editing, anything happens to my manuscript does not related to any others.

Yours,

Xiequn Xu
