

Author Responses

Dear editors,

Thank you for reviewing our manuscript entitled "Development of a human rotavirus diarrhea model in Chinese mini-pigs" (Manuscript No. 25614) that we submitted for publication in World Journal of Gastroenterology.

The manuscript has been thoroughly revised to address the points raised by the editors and reviewers. Please find attached the revised version of the manuscript in which the changes are highlighted, and our point-to-point responses to the editors' and reviewers' comments below.

Name of journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 25614

Manuscript Type: *BASIC STUDY*

Title: Development of a human rotavirus diarrhea model in Chinese mini-pigs

COMMENTS TO AUTHORS

Answer to the comments of reviewers

1、 - Very good study with relevance.- State when the study was conducted (month, year) and total duration of study.- Minor language polishing, eg, page 6 last line should be "...selected for use..." not "used"-Include future research recommendations.

Answer: Thank you for your comments! We have polished the language of the manuscript. The page 6 last line has been modified to "...selected for use..." according to your suggestion. You can see the change at page 7 last line of the modified manuscript.
