Science Editor

Editorial Office

World Journal of Gastroenterology

Dear sir/madam,

**Re: Language Certificate for the manuscript number: 25617**

At the outset, please allow us to take this opportunity to thank you for inviting us to write this review to your journal. We are definitely impressed by the review process and the manuscript has been changed according to the reviewer comments.

Although all the authors are from countries where English is not the first language, our medical education (both undergraduate and postgraduate) were in English. All of us work in the English language in our day to day clinical and research work. Dr. B.J.C. Perera is a Section Editor of the Ceylon Medical Journal indexed in PUBMED/MEDLINE, Thomson Reuters ESCI, BIOSIS, SCOPUS, and EMBASE. He is also the Joint Editor of the Sri Lanka Journal of Child Health (<http://sljch.sljol.info/>) which is indexed in SciVerseScopus (source ID 19900193609) and IMSEAR. This journal is also a recognized journal by the ICMJE. The first author is also an editorial board member of the journal. Prof M.A. Benninga is a world recognized scientific author who has contributed to over 300 articles. He is the lead author for Rome IV criteria for neonates and toddlers which was released recently. Together, we guarantee the accuracy of written English in this article.

Dr. Shaman Rajindrajith (MD, FRCPCH, PhD)
