

Beirut 23/5/2016

Dear Miss, Mr,

I would like to thank you to give us the opportunity to revise our paper N:25687 according to reviewers comments.

All of the revisions that we make to the revised manuscript were cited in the response letter and highlighted in the updated version of the manuscript.

1-The language : refined

2-We elaborate on the treatment options including operative mortality (elective versus emergent) and success rates of radiological interventions.

3-A more detailed description of open treatment was added

4-Figure 4 was withdrawn for technical problem.

Thank you,

Sincerely,

Bassam ABBOUD
