

Letter to the Section Editor and the Reviewer

we are very pleased about the positive judgement of the Section Editor and the Reviewer of the World Journal of Gastroenterology on the review article “Pancreatic cancer stem cell markers and exosomes - the incentive push” by S. Heiler, Z. Wang and M. Zöller.

In the revision, we followed the Section Editor’s suggestion to introduce abbreviations. We also updated the references as far as possible. Finally, there are some minor language improvement. Changes are indicated in red. Thank you again for the most positive judgement.
