

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript No: 26037

Manuscript Type: TOPIC HIGHLIGHT

Dear Editor

We want to thank you for your valuable remarks as well as reviewers” comments regarding the review article entitled (Doppler ultrasonography in living donor liver transplantation recipients: intra- and post-operative vascular complications).

Response to editor and reviewers comments:

- 1- A language certificate letter by professional English language editing company (American Journal Experts: <http://www.aje.com>) has been included in the submission documents.**
- 2- The running title, core tip and conflict of interest statement have been added in the title page of the revised manuscript document.**
- 3- The reference numbers have been reformatted (superscript with square brackets).**
- 4- All figures as well as clean figures (without letters, symbols or numbers) were added as individual files.**

We hope that the those changes fulfill the requirements of publications
