

Dear Editor,

We are grateful for the reviewers' kind and valuable comments. We have done the changes in red fonts in manuscript. We are presenting above the answers and changes according to reviewers' comments.

1. We perform 3 to 5 per annually IRE since 2013 in our institution.
2. The gastrojejunostomy was completed.
3. The complications of IRE were added to the discussion section.
4. Discussion about narrowing of SMA about tumor and surgical/percutaneous IRE was added to discussion section as reviewers' comments.

Reviewer 2

1. We have mentioned potential adverse events using this technique as reviewer's comments.

Sincerely yours,

Yahya Ekici, MD

Professor in General Surgery

Baskent University, School of Medicine
