The Editor,  
World Journal of Diabetes

12/4/2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: **2640 revision**)

**Title:** Gastrointestinal complications of diabetes mellitus (Review article)

**Authors:** Babu Krishnan, Shithu Babu, Jessica Walker, Adrian B Walker, Joseph M Pappachan.

**Name of Journal:** *World Journal of Diabetes*

**ESPS Manuscript NO:** **2640 revision**

We thank reviewers for their valuable comments and suggestions which we have addressed individually as below and have included changes in the manuscript.

#### **Response to Reviewer 1**

Reviewer one suggested inclusion of a brief discussion on translational research and this has been done in the revision in appropriate sections with new references for the discussion (References: 3, 17, 20, 30, 46, 74 and 111)

#### **Response to Reviewer 2**

**Major comments:** 1. More discussion on esophageal complications, enteropathy and glycogenic hepatopathy has been suggested and these changes have been done in the revision with appropriate new references.

2. Abstract has been rewritten with key findings of the paper.

**Minor comments:** 1. Abbreviations are avoided where necessary as suggested.

2. Discussion on references has been done as pointed out.

3. Subtitle newer prokinetics deleted

4. Correction is made as suggested

5. Appropriate change is made in the revision to address this comment.

6. All typographical errors and sentence corrections has been made in the revision as suggested by the reviewer.

## **Response to Editors comments**

All comments by the editor has been addressed and necessary changes have been made in the revision as suggested.

We hope these changes meet the requirements of the *WJD*.

Sincerely yours,

Dr. Joseph M Pappachan,
