World Journal of Virology

manuscript N<sup>o</sup>: 26415

Title: Neurological manifestations of Zika Virus infection

Dear Dr. Qiu

Please, enclosed find our revised manuscript (n<sup>o</sup> 26415) with the modifications suggested by the reviewers:

As indicated by reviewers 1 and 3, figures describing the genome (new Figure 1), the virion structure (Figure 2), and the transmission cycle of ZIKV (Figure 3) have been included in the revised manuscript, as well as one table describing the clinical features of the disease (new Table 1) and one with the recommended preventive measures (new Table 3); however, no figure regarding geographical distribution of the virus has been included as no mention to it is made in the paper.

We hope that with these modifications, the manuscript will now be found suitable for publication in your journal.

Waiting news from you

Regards

Dr. Juan Carlos Saiz
