

26873-Answering Reviewers

Dear reviewers,

We want to thank you for taking the time to thoroughly review our manuscript. All questions and our reactions on the first review are listed in **yellow** in the manuscript file.

- As requested, we have added author contributions, institutional review board statement, informed consent, conflict of interest statement and phone- and faxnumber to the title page.
- We have adjusted the abstract to meet the requirements mentioned by the editor.
- Keywords, core tip and citation were added as suggested. The audio core tip will be supplied by mr Ji, for which we are very thankful.
- We have added comments after the discussion, as requested.
- The figure legend was adjusted to include the legend of figure 1C within the legend for figure 1.
- References were added to table 1.
- PMID and DOI were stated for each reference, if available.

Any additional changes made to manuscript after the second review are listed in **green** and with track changes.

- We have adjusted three references in the introduction. The references are now stated correctly.
- We have adjusted the text to minimise overlap as shown in the CrossCheck.

The first mentioned reference with an overlap of 163 words ("ECTES Abstracts 2016", European Journal of Trauma and Emergency Surgery, 2016) is the published abstract of the same case, which was presented at ECTES convention in Vienna in 2016 by the same authors.

We sincerely hope the manuscript now suits the style of World Journal of Orthopedics.
Thank you for considering our manuscript for publication,

Hoping for a swift and positive reply,

Best wishes,

Ewout Veltman, MD
