Institutional Review Board and informed consent statement

[Impact of renal transplantation on cardiac morphological and functional characteristics in children and adults]

[Amin R Soliman]

aminroshdy@yahoo.com

Consent Form

You are invited to take part in a research study of [**Impact of renal transplantation on cardiac morphological and functional characteristics in children and adults**].

What you will be asked to do: [give full medical history, be subjected to full clinical examination, record age, body mass index (BMI) and give a blood sample, do a trans-thoracic echocardiography.]

Risks and benefits: [undergo a free full check for cardiac and renal functions with relatively no risks.]

Taking part is voluntary: Taking part in this study is completely voluntary. If you choose to be in the study you can withdraw at any time without consequences of any kind. Participating in this study does not mean that you are giving up any of your legal rights.

Your answers will be confidential: The records of this study will be kept private. [

If you have questions or want a copy or summary of the study results: Contact the researcher at the email address or phone number above.

Statement of Consent: I have read the above information, and have received answers to any questions. I affirm that I am 18 years of age or older. I consent to take part in the research study
