Manuscript Type: Case Report

Antineutrophil cytoplasmic antibodies crescentic allograft glomerulonephritis after sofosbuvir therapy

Shilpa Gadde, Belinda Lee, Laura Kidd, Rubin Zhang

Dear Editor,

Thank you and the 3 reviewers' for the time and excellent comments. We have revised the paper accordingly as high lined in this manuscript.

Reviewer 00503002: Laboratory reference intervals for liver enzymes are defined now.

Reviewer 00503221: Relation between alveolar hemorrhage and amoxicillin is described, and main treatment including Rituximab and Plasmapheresis are discussed in a new paragraph with a new reference.

Reviewer 00503279: We have added one paragraph with reference to provide more detailed clarification and rational for the different treatments used in the case.

Sincerely,

Rubin Zhang, MD, FASN
