

April 20, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 2881-(revised).doc).

Title: Complete recovery of severe tetraparesis after excision of large c1-osteochondroma

Author: Essam A. Elgamal

Name of Journal: World Journal of Neurology

ESPS Manuscript NO: 2881

The manuscript has been improved according to the suggestions of reviewers:

1. Atlas should be written as atlas in the abstract section, Done
2. exostosis should be written as Exostosis in keywords, Corrected
3. un-sustained should be written unsustained in the case presentation, Changed
4. Solitary and MHE exostoses had similar distributions of vertebral origin. MHE should be written as MH in the discussion section, I think it MHE is the known description of the multiple hereditary exostosis
5. Fifth and fourteenth references are same. Please make these corrections. Sincerely has been updated, Erased and correction done.

I have contacted one of the professional English language editing companies and they requested a kind of form from your office to issue a certificate for me.

Thank you again for publishing manuscript in the World Journal of Neurology.

Sincerely yours,

Essam A. Elgamal FRCS(SN)
