

To the Editor of the *World Journal of Gastroenterology*

RE: revision of **Manuscript N° 29696**

Dear Sir,

For the past 18 years I have been revising and editing for publication in the most prestigious international medical journals the articles produced by many of the departments of the two principal universities in Naples, Italy. I was born and educated in Great Britain, have diplomas in both English and Italian and have worked consistently as a medical/scientific text reviser for the past 30 years.

I have thoroughly revised the manuscript written by Prof. Luigi Elio Adinolfi entitled **“Clinical features and natural history of cryptogenic cirrhosis compared to Hepatitis C virus-related cirrhosis”** for publication in the *“World Journal of Gastroenterology”*.

I, therefore, deem that it is fit for publication and does not require any further revision.

I remain at your disposal should you need any further information.

Yours sincerely

Elizabeth McGarry
