

Dear Editor,

We thank you for the review of our manuscript titled "**Psychotropic drugs and liver disease: a critical review on pharmacokinetics and liver toxicity**".

The comments from the editorial team and reviewers from World Journal of Gastrointestinal Pharmacology and Therapeutics really contributed to improving our manuscript. We would like to inform that below you can find our answers to the comments and suggestions from the reviewers. The comments from the reviewers are in bold and our responses in italics. Moreover, you can find in attachment the revised version of the manuscript with the completed corrections.

We apologize for the excessive time to answer the reviewer's requests. We hope that this new version of the manuscript matches the high standards requested by your magazine and we hope for a positive response. Below, our comments in response to the suggestions from each reviewer.

Best regards

The authors

---

**General Comments:**

The study entitled "... " presented the objective "to review the fundamental pharmacokinetic alterations caused by end-stage liver disease and also the potential of liver toxicity of psychopharmacological agents". However, some minor points should be fixed. Below, you can see my comments.

Minor points:

**1. Please, give the city and postcode from authors.**

*Answer*

*Thank you for your comment. We inserted the complete description based on the comments.*

**2. In order to attract readers to read your full-text article, we request that the first author make an audio file describing your final core tip. This audio file will be published online, along with your article. Please submit audio files according to the following specifications:**

**Acceptable file formats:** .mp3, .wav, or .aiff, and **maximum file size:** 10 MB.

To achieve the best quality, when saving audio files as an mp3, use a setting of 256 kbps or higher for stereo or 128 kbps or higher for mono. Sampling rate should be either 44.1 kHz or 48 kHz. Bit rate should be either 16 or 24 bit. To avoid audible clipping noise, please make sure that audio levels do not exceed 0 dBFS.

*Answer*

*We added the suggested file.*

**3. Please add PubMed citation numbers and DOI citation to the reference list and list all authors. Please revise throughout. The author should provide the first page of the paper without PMID and DOI. PMID (<http://www.ncbi.nlm.nih.gov/pubmed>) DOI (<http://www.crossref.org/SimpleTextQuery/>)**

*Answer*

*As the reviewer suggested we added all PMID and DOI numbers.*

**4. Please put the number of each citation overwritten.**

*Answer*

*As the reviewer suggested we putted all citation overwritten in the text.*
