Rosie Perkins, PhD
Scientific Editor

14 December, 2016

Dear Yuan Qi

I hereby confirm that I have edited the article entitled "Impact of gastroesophageal reflux control through tailored proton pump inhibition therapy or fundoplication in patients with Barrett's esophagus".

I am a native English speaker and am employed as a scientific editor at the Department of Molecular and Clinical Medicine within the Institute of Medicine at the University of Gothenburg. I have been working as an editor since 1993.

Yours sincerely

A handwritten signature in blue ink that reads "RS Perkins".
