Reviewer

01220036: accepted after language editing.

**Comments to 01220036 :** Thank you for reviewing and accept our manuscript. The text was reviewed to reach an English grade A.

**02705018:** This is an overall interesting study. However there are some issues to be solved. 1. The English language is poor. The manuscript should be reviewed by a native English speaker. 2. Core tip session should be re-written in order to trigger reader's attention. 3. The clinical meaning of this research should be clarified.

**Comments to 02705018:** Thank you for revising our manuscript. An English revision was performed. Core tip and the object of study were rewritten, clarifying the aim of our study.

**02444860** - Please see above.

**Comments to 02444860** – Thank you for revising our manuscript. An English edition was performed as suggested.

**Comments to Editor**

Thank you for opportunity to submit our article to World Journal of Orthopedics. The draft format was revised using the Journal requirements and additional information requested was inserted. The references format was also changed using the Baishideng Publishing Group orientation. The core tip was re-written. All the requested suggestion were performed and included.
