

1/9/2017

To the editorial staff,

The statistical methods of this study (ESPS Manuscript No: 31025) were reviewed by myself, Heather Litman, PhD, while I was a senior biostatistician at the Clinical Research Center of Boston Children's Hospital. I also performed the statistical analysis at that time. I am now employed as a lead biostatistician at Corrona, LLC.

Best,

Heather Litman
