The Entirely Subcutaneous Defibrillator (S-ICD): State of the Art and ...

<https://www.ncbi.nlm.nih.gov> > NCBI > Literature > PubMed Central (PMC) - 翻译此页

作者: E De Maria - 2015 - 被引用次数: 8 - 相关文章

Keywords: **Subcutaneous defibrillator**, sudden cardiac death, ventricular arrhythmias. pediatric or GUCH (Grown-Up **Congenital Heart disease**) population with no ... about safety and efficacy of this device in a **long term follow up** (up to 4 years). ... Currently there are still no **clinical data** that demonstrate S-ICD can prevent ...

Implantable cardioverter-defibrillators in congenital heart disease

<https://www.ncbi.nlm.nih.gov> > NCBI > Literature > PubMed Central (PMC) - 翻译此页

作者: H Chubb - 2016 - 相关文章

2016年6月1日 - Distribution of **congenital heart disease** (CHD) implantable ... The role of ICD implantation in CHD patients **following** resuscitation for cardiac arrest is usually ... Small studies have demonstrated high **rates** of **long-term** VT-free survival in patients **Clinical** experience of **entirely subcutaneous** implantable ...

Pacing and Defibrillators in Complex Congenital Heart Disease

<https://www.ncbi.nlm.nih.gov> > NCBI > Literature > PubMed Central (PMC) - 翻译此页

作者: H Chubb - 2016 - 被引用次数: 2 - 相关文章

2016年2月3日 - Device therapy in the **complex congenital heart disease** (CHD) population is a challenging field. ... **Prevalence** of Indications for Pacing Therapy and ICD Therapy in Selected at **long-term follow-up**. 19:71 Regarding thromboembolic events in **Clinical** experience of **entirely subcutaneous** implantable ...

Implantable cardioverter-defibrillators in adults with congenital heart ...
