### **COMMENTS TO AUTHORS**

Allograft Loss from Acute Page Kidney Secondary to Trauma after Kidney Transplantation: A Case Report and Literature review" by Takahashi K et al. is according to my opinion, acceptable for publication. The topic is very interesting. The authors presented their experience with Page kidney phenomenon after kidney transplantation. It is relatively unfrequent complication but with possible serious complications on graft. Also the literature review is adequate and informative. This article is worthwhile for publication.

### **RESPONSE TO REVIEWER**

Thank you very much for your comment. We had English correction (see proof). We appreciate your

### **COMMENTS TO AUTHORS**

Comments: The authors should further modify the table 1 due to some incomplete information. In addition, they should add the detailed description in Figure legends.

### **RESPONSE TO REVIEWER**

Thank you very much for the excellent indications. We had English correction (see proof). We modified the table 1 and add more detailed explanations for Figure Legends. We appreciate your consideration for suitability for publication in World J Transplantation.
