

INFORMED CONSENT STATEMENT

Title: Coronary angiography findings in cardiac arrest patients with non-diagnostic post-resuscitation electrocardiogram: a comparison of shockable and non-shockable initial rhythms.

Authorship: Martínez-Losas P, Salinas P, Ferrera C, Nogales-Romo MT, Noriega F, Del Trigo M, Núñez-Gil IJ, Nombela-Franco L, Gonzalo N, Jiménez-Quevedo P, Escaned J, Fernández-Ortiz A, Macaya C and Viana-Tejedor A.

Name of Journal: World Journal of Cardiology

Manuscript NO: 31322

All patients' relatives signed informed consents for the clinical procedures performed during admission. No special tests were done for this study. Therefore, no specific informed consent was obtained for this anonymous observational study.

A handwritten signature in black ink, appearing to read 'P. Salinas', with a horizontal line underneath.
