Dear Editors,

Please find enclosed our manuscript entitled “**PREDICTIVE FACTORS FOR COMPLIANCE WITH TRANSANAL IRRIGATION FOR THE TREATMENT OF DEFECATION DISORDERS**”.

There is no comment of reviewer to which we could answer.

We have followed the manuscript preparation for retrospective study and corrected the manuscript according to the remarks appearing in the commentaries. All the correction appeared in bold in the revised manuscript.

As we work for a long time without any problem with an english medical writer, I guarantee personally the language presentation of our manuscript.

We trust that you will find our article satisfactory for publication in the World Journal of Gastroenterology.

Yours truly,

AM Leroi
