

Certificate of Re-Approval

PRINCIPAL INVESTIGATOR

Terra Arnason

DEPARTMENT

Medicine (Endocrinology)

Bio #

14-80

INSTITUTION (S) WHERE RESEARCH WILL BE CARRIED OUT

Royal University Hospital
103 Hospital Drive
Saskatoon SK S7N 0W8

University of Saskatchewan
Saskatoon SK

SUB-INVESTIGATOR(S)

Kerry Mansell

STUDENT RESEARCHER(S)

Matthew Bowen, Hasitha Welihinda

FUNDER(S)

INTERNALLY FUNDED

UNIVERSITY OF SASKATCHEWAN - COLLEGE OF
PHARMACY AND NUTRITION

TITLE:

The Effects of Intermittent Fasting and High Protein Intake on Individuals with Type 2 Diabetes Mellitus

RE-APPROVED ON

01-May-2015

EXPIRY DATE

30-Apr-2016

Full Board Meeting ☐

Delegated Review ☒

CERTIFICATION

The study is acceptable on scientific and ethical grounds. The principal investigator has the responsibility for any other administrative or regulatory approvals that may pertain to this research study, and for ensuring that the authorized research is carried out according to governing law. This re-approval is valid for the specified period provided there is no change to the approved protocol or consent process.

FIRST TIME REVIEW AND CONTINUING APPROVAL

The University of Saskatchewan Biomedical Research Ethics Board reviews above minimal studies at a full-board (face-to-face meeting). Any research classified as minimal risk is reviewed through the delegated (subcommittee) review process. The initial Certificate of Approval includes the approval period the REB has assigned to a study. The Status Report form must be submitted within one month prior to the assigned expiry date. The researcher shall indicate to the REB any specific requirements of the sponsoring organizations (e.g. requirement for full-board review and approval) for the continuing review process deemed necessary for that project. For more information visit http://www.usask.ca/research/ethics_review/.

REB ATTESTATION

In respect to clinical trials, the University of Saskatchewan Research Ethics Board complies with the membership requirements for Research Ethics Boards defined in Division 5 of the Food and Drug Regulations and carries out its functions in a manner consistent with Good Clinical Practices. This re-approval and the views of this REB have been documented in writing.
