Re: Hospital Readmissions in Decompensated Cirrhotics; factors pointing toward a prevention strategy

Dear World Journal of Gastroenterology reviewers-

Thank you for your thoughtful review of our manuscript. We have made the following edits per your request and hope that we have satisfied all the necessary requirements for publication.

1. Running title provided as requested.
2. Author contributions included as requested.
3. Core tip and audio core tip provided.
4. Reference numbers reformatted in manuscript text per required format. All text has been reformatted to 1.5 spacing and required font.
5. Highlighted Contents section added to manuscript.
6. References reformatted to include PubMed, DOI numbers and all author names.

Thank you,

James M. Richter
