Importance of surgical margin in the outcomes of hepatocholangiocarcinoma

Ka Wing Ma, Kenneth Siu Ho Chok

#### Abstract

**Aim:** This retrospective study aimed to evaluate the significance of resection margin width in the management of hepatocholangiocarcinoma (HCC-CC).

**Method:** Data of consecutive patients who underwent hepatectomy for hepatic malignancies in the period from 1995 to 2014 were reviewed. Patients with pathologically confirmed HCC-CC were included for analysis. Demographic,
