**Upper extremity disorders in heavy industry workers in Greece**

**Thomaella Tsouvaltziidou, Evangelos Alexopoulos, Ioannis Fragkakis, Eleni Jelastopulu**

#### **Abstract**

**Aim:** To investigate the disability due to musculoskeletal disorders of the upper extremities in heavy industry workers.

**Methods:** The population under study consisted of 802 employees, both white- and blue-collar, working in a shipyard industry in Athens, Greece. Data were collected through the distribution of questionnaires and the recording of individual and job-related characteristics during the period 2006-
