Perspectives of traditional Chinese medicine in pancreas protection for acute pancreatitis

Jun Li, Shu Zhang, Rui Zhou, Jian Zhang, Zong-Fang Li

### Abstract

Acute pancreatitis (AP) is one of the most common diseases. AP is associated with significant morbidity and mortality, but it lacks specific and effective therapies. Traditional Chinese medicine (TCM) is one of the most popular complementary and alternative medicine modalities worldwide for the treatment of AP. The current evidence from basic research and clinical studies has shown that TCM has good therapeutic effects on AP. This review
