

Institutional review board statement: This study was conducted in accordance with the principles of the Declaration of Helsinki, and written informed consent for the treatment and colonoscopy was obtained from all patients. We did not seek individual ethical approval by the Committee because this was an observational study without interpositions and with the medical practice necessary for therapeutic purposes.

Informed consent statement: Informed consent from the included patients was not obtained to participate in the study. However, each patient provided written informed consent for undergoing colonoscopy and treatment

Conflict-of-interest statement: We have no financial relationships to disclose.

Data sharing statement: No additional data are available
