

Language statement for solicited manuscript submitted to Word Journal of Diabetes

Dear Editor,

All co-authors are of French and Spanish nationalities. They are unable to provide a language certificate ensured that an expert proofreading person or company has corrected the English style of the enclosed manuscript, entitled:

Short-term effects of obestatin on hexose uptake and triacylglycerol breakdown in human subcutaneous adipocyte

However, the corresponding author of this work who wrote the draft of the manuscript totalizes as co-author 146 published articles indexed in PubMed database. Although not native English speaker, the corresponding author has the required grasp of knowledge for vehicular English. Moreover, the draft was scrutinised by a colleague who spent six years at the Univ. of California - Los Angeles (UCLA). This colleague is thanked in the acknowledgments, recognized that no further extensive language editing was necessary before publication in any scientific journal.

On behalf of all co-authors,
Christian Carpéné
