

ANSWERING EDITOR AND REVIEWERS

Dear Editor,

We have answered all the concerns concerning the manuscript 33432 for World Journal of Transplantation. In particular:

The conflict of interest declaration has been enclosed

The audio core tip has been enclosed as mp3 file

All others requested files are enclosed

In addition also to avoid any duplication or plagiarism the chapter PRE-TRANSPLANT BIOMARKERS AND PREDICTION OF POST-TRANSPLANT OUTCOME has been cancelled.

You have now the manuscript in three different colors. Black is the original, red reviewers comments, green the manuscript revised by the American Journal Experts (see the certification)

COMMENTS TO AUTHORS

The duplications have been eliminated, especially for the overlaps between PRE-TRANSPLA BIOMARKERS and IRI and DGF. The chapter pre-transplant biomarkers has been cancelled and some of its content has been transposed. Stratification has been made according the suggestion.

References in the table have been added.

Typo errors have been corrected by American Journal Experts.

Title has been rewritten as suggested

The abstract has been rewritten according the suggestions

Similarly, the Introduction chapter has been further policed

Literature search methods have been added as a chapter

As the manuscript is a review similarities with already written paper are unavoidable.

Obviously the wording is different and the materials reorganized according what written in the new abstract and in the introduction

Repetitions have been avoided and the manuscript substantially reduced. Some chapters have been cancelled.

Abbreviations have been carefully checked

Almost 70 references have been cancelled

The manuscript has been reviewed by the American Journal Experts (see the certification)

Thanks to the reviewers concerns the manuscript has been improved.

Best regards.
