ZU-IRB #2516-10-1-2016

NOTICE OF APPROVAL

IRB#:2516/10-1-2016

Approval DATE: 10-1-2016

Expiration DATE: 10-1-2017

Principal Investigator (PI): Ramy Ibrahim Elsayed

Title of Protocol:

The role of real time Endoscopic Ultrasound Elastography and Strain Ratio in differentiating benign from malignant pancreatic focal lesions.

Dear Dr: Ramy Ibrahim Elsayed

The IRB has reviewed and assessed the above named study regarding the potential risks and benefits based on the Declaration of Helsinki. The "ratio" of risk to benefit is reasonable, given the goals of the study. The variables assessed, including the proposed subject populations, proposed procedures and scientific background are supporting the study. The IRB approved that it is within the ethical guidelines as outlined in the Declaration of Helsinki.

Having met the requirements set forth by the institutional Review Board by an expedited review process

your research project is now approved, effective Jan 10, 2016. This project will require annual review and will expire on Jan 10, 2017. Research that has not received approval for continuation by this date may not continue past midnight of the expiration date.

If, during the course of the research, there are any serious adverse events, confidentiality concerns, these should be brought to the immediate attention of the IRB.

You should not initiate changes in the approved research protocol without IRB review and approval "except if found necessary to eliminate immediate hazards to the human subjects".

Sincerely
CHair IRB
