Dear Prof Watson

Project Grant Application: 1008337
Scientific Title: Efficacy of Ablative Therapies for Barrett's Oesophagus

I am pleased to advise that the Minister for Mental Health and Ageing, the Hon Mark Butler MP, has approved funding for your National Health & Medical Research Council (NHMRC) Project Grant to commence in 2011.

Approved Budget

The Approved Budget for this Project Grant is \$550470.00 over a period of 3 years. This budget (and its individual components) was determined by the Grants Review Panel (GRP) during its detailed assessment of the application. You should note that this budget (excluding any equipment component) is provided as a one-line grant. Grantees may expend the funds as necessary to support the research project, provided that:

1. all expenditure is in accordance with the requirements of the *Deed of Agreement – Research Funding Schemes* (the Deed), noting that use of funding for some purposes is expressly excluded in the Deed;
2. funding approved for specific pieces of *Equipment* is used for this purpose;
3. funding is not used to provide infrastructure that should be provided by the institution;
4. annual financial reports itemise expenditure against outgoings, including *Salaries, Equipment* and *Direct Research Costs*; and
5. all expenses must be relevant to the approved research objectives of the grant.

The following table indicates the total amount in each year for which funding has been approved. These amounts are exclusive of any GST or annual indexation that may apply.
